## Certificate Of Calibration

Customer Best in the West Safety  
Calibration Number 68894 - 76019  
Date Received Wednesday, September 25, 2024  
Manufacture OHD, LLLP  
Model Quantifit  
Serial # 86105811

### Calibration Information

Date Calibrated **9/30/2024** Next Calibration Due By **9/29/2025**  
Calibration Procedure OHD\_8610\_Validation\_Procedure\_REV05  
Technician Jack Marlowe

### Standards Used to Perform Calibration

| Manufacture   | Model              | Description         | Serial Number        | Cal Reference Number | Cal Due    |
|---------------|--------------------|---------------------|----------------------|----------------------|------------|
| BC BIOMEDICAL | DPM23027<br>5NNS04 | Pump Pressure Meter | 7321275NNS0<br>41219 | T3422-001            | 11/6/2024  |
| Mensor        | CPC 6000<br>SENSOR | Pressure Meter      | 41000CK6             | 237786               | 11/23/2024 |

OHD, LLLP certifies that the unit listed above meets or exceeds all the current manufacturer's specifications. Furthermore it has been calibrated with the instruments listed above, whose accuracies are traceable to the National Institute of Standards and Technology (NIST). Devices for which there are no NIST calibration standards are measured against in-house performance standards using accepted test procedures.

This report/certificate shall not be reproduced without written approval by OHD, LLLP.
